PUBLIC SECTOR INFRASTRUCTURE SOLUTIONS That Make a Difference

Why choose Morrison Hershfield?

OUR CLIENTS BENEFIT from a well-organized nimble team with local presence backed by over 1000 staff in 24 offices across North America and beyond; ensuring your project is delivered according to your vision, schedule and requirements.

- ▶ **CLIENT-FOCUSED** - Over 90% of our business comes from repeat clients. Our goal is to provide an unmatched client experience, and we are proud to maintain an “excellent” client satisfaction rating.
- ▶ **RESPONSIVE** - With over 1000 employees across North America, we have the resources to help you anytime, anywhere.
- ▶ **INVESTED** - Our employee-owned business culture allows us to attract and retain the best talent who are invested in the success of our clients’ projects.
- ▶ **INNOVATIVE** - Our award-winning solutions are provided by subject matter experts who work on some of the biggest and most complex projects in Canada, the U.S. and internationally.
- ▶ **FAST-PACED** - Our intimate knowledge of regulatory processes and multitude of contacts will help move you through the permitting process so that your project obtains required approvals as quickly as possible.
- ▶ **ONE-STOP-SHOP** - Take advantage of our integrated multidisciplinary team approach by bundling services early on to save time and money and add value to your projects.
- ▶ **ONE SIZE DOES NOT FIT ALL** - Our team of technical experts helps communities find the right solutions to their unique challenges. Predefined solutions do not drive our work.

Make us your first call.

Amazing firm. We have been working with MH for over seven years and have been extremely pleased with their project management, pricing, expertise, and guidance in both large and small capital projects.

BORDEN PARK NATURAL SWIM EXPERIENCE

Edmonton, AB

AWARD WINNER
2020 Royal Architectural
Institute of Canada Award
Governor General's Medal in
Architecture

**BUILDING
& FACILITIES
ENGINEERING**

**\$12M
CONSTRUCTION
VALUE**

**ELECTRICAL
SERVICES**

**LEED
CERTIFIED**

The Natural Swim Experience is an artificially created ecological system in which the properties of natural water are optimized for its bathers' health. Morrison Hershfield provided electrical engineering for the project which involved the decommissioning and removal of the existing swimming pool and complete renovations to the existing Heritage Protected Amenities Building to accommodate the new year-round pool. The project was completed in accordance with LEED certification to create a sustainable swim experience in one of Edmonton's most historic parks.

DEPARTMENT OF NATIONAL DEFENCE HEADQUARTERS, CARLING CAMPUS

Ottawa, ON

46
MW POWER

711,000
SQUARE FEET

1.25
PUE

**ELECTRICAL,
MECHANICAL,
STRUCTURAL, LEED
CONSULTANT**

The government department required a shift from dozens of downtown locations to one 370-acre ten building campus along Carling Avenue. Morrison Hershfield provided building envelope consulting services including the design and construction review of windows, opaque walls, curtain walls, EIFS, sloped glazing, tunnels, and below grade walls. Our client required a number of items including life cycle cost considerations, ultra-efficient glazing (triple glazing with very low solar gains), security challenges, building envelope LEED considerations, and of course, durability.

CALGARY CANCER CENTRE

Calgary, AB

COMMISSIONING | **TWO**
CURVING L-SHAPED
CURTAIN WALLS

TARGETING
LEED
GOLD

1.2M
SQUARE FEET

The new 1.2 million SF Calgary Cancer Centre is a world class facility and hub for cancer treatment and research. Morrison Hershfield is providing LEED fundamental and enhanced commissioning services and overseeing commissioning activities throughout the design, construction and post-occupancy phases of the project. The project is targeting LEED Gold certification.

AMHERST ISLAND AND WOLFE ISLAND FERRY DOCKS

Kingston, ON

ELECTRIFICATION
RETROFITS

REDUCE GHG
EMISSIONS BY
446M KG
OF CO₂

FIRST
ELECTRIFIED
FERRIES IN
NORTH AMERICA

AMHERST ISLAND
DESIGN-BUILD
WOLFE ISLAND DESIGN
& CONSTRUCTION
SUPPORT

Morrison Hershfield facilitated the integration of the electric ferry designs and the reconstructed docking facilities for what could be the first electrified ferries in North America. The new configurations will increase accessibility to and from the islands. It is anticipated these projects will reduce Ontario's GHG emissions by 446 million kg of CO₂ during the ferries' 60-year lifespans.

NATIONAL VETERANS MEMORIAL AND MUSEUM

Columbus, OH

**FACADE
ENGINEERING**

**53,000
SQUARE FEET**

**28 MILLION
POUNDS OF
CONCRETE**

**NEW
CONSTRUCTION**

The challenge of the museum was to design the infill curtain wall that spans the unusual openings, despite the concrete walls being in different, overlapping, vertical planes. Innovative yet simple, Morrison Hershfield suggested installing a typical curtain wall system completely inboard of the concrete arches, instead of trying to accommodate the unique shape of each arch. The solution greatly improved the delivery schedule because curtain wall manufacturing became independent of concrete arch installation.

FOUNDED on
technical excellence
and ethics.

OUR RICH HISTORY of
diverse projects provide exposure
to emerging trends in process and
design technologies spanning different
industry sectors, keeping us ahead
of the curve. We regularly adapt and
integrate these technologies into
solutions for our clients. **Our passion
to design and build our projects
right the first time is recognized
